Standard Chart of Accounts (SCOA) and Economic Reporting Format (ERF) for Budget Managers and Non-Financial Officials

COURSE CODE: F1320

Purpose

To equip government budget managers and non - financial officials with a sufficient understanding of SCOA and ERF to enable them to interpret financial reports and transactions.

Target Group

The course is aimed at budget managers (officials that are responsible for a budget) and non- financial officials in the national and provincial government. The typical target audience is:

- Programme managers
- Sub Programme managers
- Officials in charge of a responsibility
- Line function managers and officials (engineers, architects, infrastructure components etc.)
- Human resource practitioners
- Budget, Financial and Policy analyst

Minimum requirement for enrolment

Learners should ideally have at least a Grade 12 qualification.

Accreditation

Certificate of attendance or certificate of successful completion.

Learning Outcomes

After attending the session, learners should be able to:

- demonstrate an understanding of the background to ERF and the link to SCOA and financial management
- classify transactions in accordance with the economic reporting format
- correctly classify payments between current and capital
- understand the seven segments of SCOA and how it is utilised in the financial system
- report on the economic classification and asset classification utilising the financial systems.

Assessment approach

Learners will complete a formative assessment during the course as well as a summative assessment on the last day.
